

Let's Get Healthy! visited French Prairie Middle School on October 17th, 2013 and collected research data from 483 French Prairie students.

28 students completed the cancer risk station and their results are shown below.

Skin cancer is the **MOST COMMON** of all cancer types

Most skin cancers are curable if caught and treated in a timely manner.

Anyone can get skin cancer.

Skin cancer risk is influenced by your genetics, skin type and your protection behaviors.

If you have a sensitive skin type (Fitzpatrick Type 1-3), you need to be especially cautious!

Individuals with darker skin (Fitzpatrick Types 4-6) are still at risk! People of color are often diagnosed later, which means the cancer can become more advanced and potentially fatal.

Regular skin checks are important for everyone!

Did you know? Legendary reggae musician Bob Marley dismissed a spot under his toenail as a soccer injury, but it turned out to be an aggressive form of melanoma that ultimately caused his death at 36.

Skin type chart

NATURAL SKIN COLOUR	Very fair (burns easily, often freckled)	Fair (burns easily)	Light brown	Moderate brown	Dark brown	Deeply pigmented (skin brown to black)
	1	2	3	4	5	6
UV SENSITIVITY & TENDENCY TO BURN	Highly sensitive Always burns, never tans	Very sensitive Burns easily, tans minimally	Sensitive Burns moderately, usually tans	Less sensitive Burns minimally, tans well	Minimal sensitivity Rarely burns	Minimal sensitivity Never burns
SKIN CANCER RISK	Greatest risk of skin cancer	High risk of skin cancer	High risk of skin cancer	At risk of skin cancer	Skin cancers are relatively rare, but those that occur are often diagnosed at later, more dangerous stages. Increased risk of low vitamin D levels.	Skin cancers are relatively rare, but those that occur are often diagnosed at later, more dangerous stages. Increased risk of low vitamin D levels.

SUN SAFETY SCORES

FITZPATRICK SKIN TYPES OF FRENCH PRAIRIE STUDENTS

None of the French Prairie students who completed the survey had “excellent” or “good” sun safety behaviors!

In the last year, 79% of French Prairie students went to a doctor's office for a checkup
